YOUNG ENGINEERS INTERNATIONAL CONFERENCE ON SMART TECHNOLOGIES AND GREEN ENVIRONMENT (YEICSTAGE 2017)

“Built Environment, where technology meets commoners”

INTERNATIONAL CONFERENCE

24th MARCH, 2017
CHENNAI, INDIA

organised by

DEPARTMENT OF CIVIL ENGINEERING
VELAMMAL ENGINEERING COLLEGE
Velammal Technological Park, Velammal Nagar
Ambattur Redhills Road, Surapet, Chennai 600 066
Tamilnadu, India

In association with

CENTRE FOR ENTREPRENEURSHIP DEVELOPMENT
COLLEGE OF ENGINEERING
Anna University
Guindy, Chennai 600 025, Tamilnadu, India
The conference

The purpose of this conference is to provide an opportunity to all stakeholders especially young engineers to interact and share ideas related to the Smart Technologies and Green Environment – so that the latest engineering applications and technologies reach the Commoners.

The ongoing climate changes, rapid economic transformations, globalization, and their effects on the Culture, Social, Civic needs, National Security and Defense have a greater impact on the built environment. This conference therefore will enable young engineers to discuss and deliver their intellectual share on how the recent trends in Civil Engineering and Technology can elevate the living standards of the commoners, while ensuring sustainable development for all.

Who Should Attend?

The International Congress on Smart Technologies and Green Environment conglomerate major international events catering to both Young and Mature minds. The PHASE I event is exclusive for Young Engineers (International Conference-YEICSTAGE 2017) that will be held at Velammal Engineering College, Chennai, India on March 24th 2017. The Phase I conference is to provide an international forum for UG and PG Students and Faculty pursuing PhD’s.

YEICSTAGE-2017 welcomes

- Ideas infusing the societal / national needs, especially the commoners’ requirements, effectively with the development of the built environment.
- Ideas to incorporate hi-fi technologies to develop common man’s domestic and civic infrastructure at affordable costs and ensure long term environmental sustainability as well.
- Ideas for consuming minimal natural resources for construction by ensuring ecological balance and using alternate materials.
- Technologies and Designs to maximize human living standards in harmony with natural stability.

Conference Themes – YEICSTAGE-2017 invites Papers, Presentations, Posters and Products related, but not limited to:

- Structures & Geotechnical Engineering
- Advanced Concrete Technology
- Surveying and Photogrammetry
- Remote Sensing, GIS Applications
- ICT Applications • Construction Chemicals
- Sustainable Construction Materials
- Earthquake Resistance Structures
- Mining & Blasting • Environmental Engineering
- Transportation Engineering • Earth Science,
- Geology • Water Resources and Irrigation
- Construction Engineering and Management
- Ocean and Coastal Engineering
- Occupational Safety, Health & Environment
- Refurbishment and Retrofitting • Constructability
- Disaster Prevention • Make in India
- Infrastructural Development • Safety Shelters
- Climatic effects on Built Environment
- Socio-cultural Issues and Built Environment
- Impact of Economic Transformations on Built Environment, Lifestyle, Health and Built Environment
- Built Environment for Children, Elderly and Differently abled services policy & procedures
- Policy, Legislation, Schemes
- Inclusive Development in Built Environment
- Finance and Economic Issues • Skills Development
- Public Private Partnership Projects • Joint Ventures
- Asset and Facility Management
- Scientific Validation of Traditional and Ancient Techniques

IMPORTANT DATES

| Submission of Abstract: | December 1st, 2016 |
| Acceptance Notification: | December 20th, 2016 |
| Full Paper Submission: | February 18th, 2017 |
| Registration: | March 10th, 2017 |
