ABOUT THE INSTITUTION

Velammal Engineering College (VEC) is chaired by dynamic Shri. M. V. Muthuramalingam, a Professional Engineer and proven personality with hands-on experience in imparting perfect education through 27 Educational Institutions belonging to Velammal Educational Trust which was established in 1986. VEC is approved by All India Council for Technical Education (AICTE) and is affiliated to Anna University, Chennai. It is an ISO 9001:2008 certified institution and is also accredited by NAAC. VEC is one among the top 10 self-financing Engineering institutions in Tamilnadu. VEC is recognized as a nodal center under TIFAC-CORE, DST, New Delhi. MOUs are signed with reputed organizations in India and abroad. Presently, VEC offers 9 Under Graduate Program and 7 Post Graduate Programs in various branches of Engineering and Technology.

ABOUT THE DEPARTMENT

The department of Electronics and Instrumentation Engineering was established in the year 2002. It offers Undergraduate program in Electronics and Instrumentation Engineering and post graduate program in Control & Instrumentation Engineering and is accredited by National Board of Accreditation. The department caters to the ever challenging needs of technical excellence in all areas of Instrumentation and Process Control Engineering. The department is equipped with Virtual Instrumentation Centre and advanced laboratories like Process Control Laboratory, Industrial Automation Laboratory etc. VEC-NI Virtual Instrumentation Centre is a collaborative centre started in year 2010 by Velammal Engineering College and National Instruments, USA, which is the second centre in India in the field of Virtual Instrumentation. Department has consistent placement record since the inception.

CONFERENCE SCOPE

Innovation is the true source of value. Over the past few decades, innovation and technology have given industrial automation new surges of growth. Industrial Automation will generate explosive growth with technology related to sensors, intelligent robots and sophisticated machines etc. Since the remote controlled automation is making headway in manufacturing settings and maintenance applications, communication support of a very high order is available for automated processes. Today’s engineers have to keep abreast of these emerging trends through research and development. This conference will bring academicians, research scholars and industrialists together to exchange their ideas and present their research findings in the area of Control, Automation and Instrumentation.

The conference topics included but not limited to the following broad areas:

Control and Automation Engineering
- Linear/Nonlinear control
- Adaptive & Optimal control
- Network based control
- Model predictive control
- Intelligent control
- Navigation control and algorithm
- Robotics and Communication

Embedded systems and Networking
- Wireless sensor networking
- VLSI design
- Embedded systems
- Microprocessor based control
- Image and signal processing

Sensor and Instrumentation
- MEMS and NANO sensor
- Sensor fusion and Optical Sensor
- Biometric sensor, medical system and control

National Conference on TRENDS IN INSTRUMENTATION AND AUTOMATION (NCTIA-2014)

Registration Form

Dr./Prof./Mr./Ms. : ____________________________
Designation : ____________________________
Organization : ____________________________
Address : ____________________________
